A Centuri Company

NPL Overview

September 2024

THINK AHEAD »

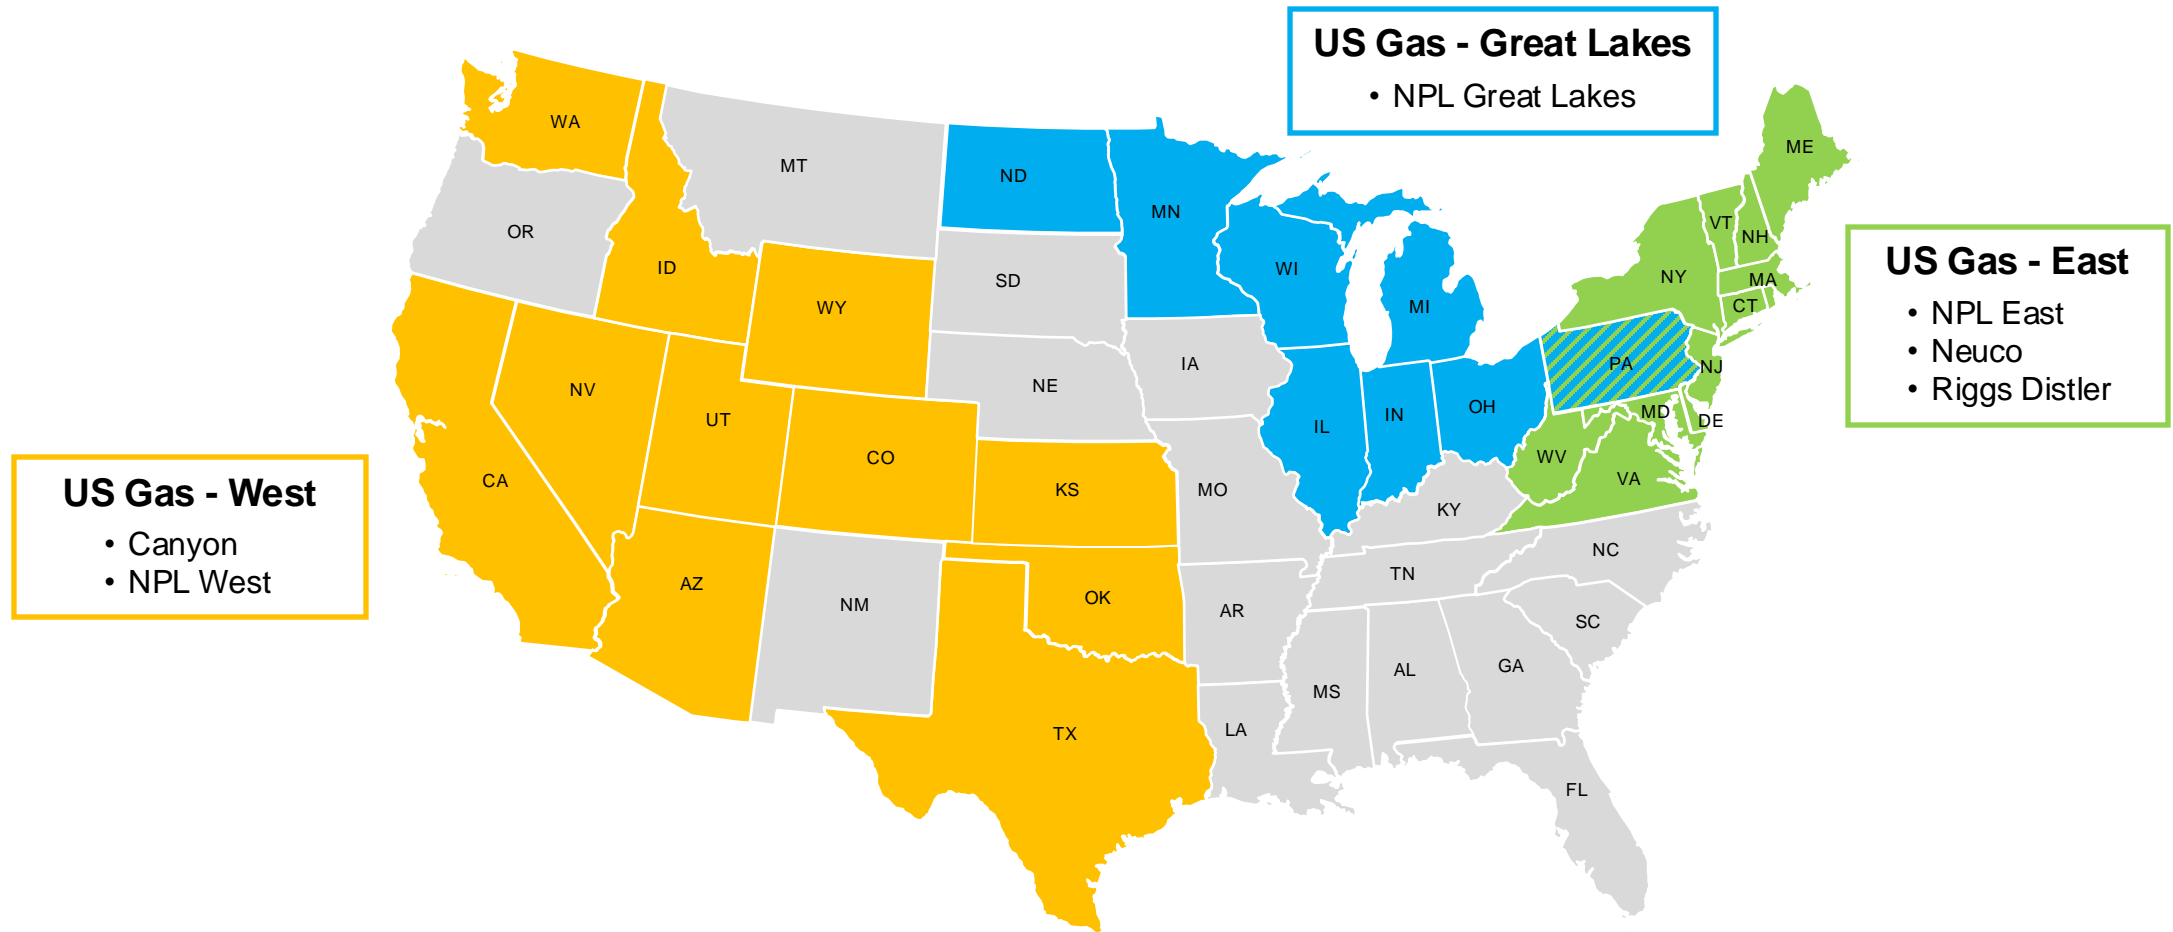

NPL Introduction

- » NPL Construction Co. is a nationally recognized industry leader built on more than 50 years of experience.
- » With a sharp focus on safety, quality and sustainability, we're thinking ahead for the long-term in our mission to provide energy delivery solutions to our customers and the communities they serve.
- » We attribute our success to two factors:
 - 1) We build longstanding relationships with our customers.
 - 2) We offer a wide range of services that other contractors can't match.

US Gas Operations

NPL is part of Centuri US Gas Operations.

Natural Gas Distribution & Transmission

From pre- to post-construction, NPL offers a full line of natural gas distribution and transmission services:

- » 1/2" – 24" Polyethylene
- » 2" – 12" Steel
- » Main & Service Replacement/Relocation
- » Meter Relocation
- » Main & Service New Business Installation
- » Regulator Stations (Fabrication & Installation)
- » Tie-Ins, 1" – 12" PE & Steel
- » Stop Offs, up to 24" Steel
- » Sewer Inspection & Verification

Natural Gas Distribution & Transmission

◀ NPL offers dedicated tie-in crews comprised of personnel qualified to complete tie-in and tap projects for 1", 2", 4" and 6" steel, and 2" and 4" PE.

◀ NPL installed 3.5 miles of 24" steel pipe. The project included construction of three transmission stations and the destruction of one; three HDD bore shots under a railroad, river and stream, totaling 3000 feet; hydrostatic testing of all the mainline; and 100% restoration.
